

Telephone Costs, Detailed Accountability, or Solution to the Corporate Phone Tax

- ▶ Would you like your employees to pay for their private calls?
- ▶ Do you have no intention to pay income tax on top of the telephone bill?
- ▶ Would you like to save the full VAT content of your telephone bills?

There is nothing else you have to do, but invoice the private use to your employees based on the detailed accounting.

For this we provide a WEB-based software solution that can be used with browsers (Explorer, Firefox). With the help of this program, the employees can declare their official and private calls.

The screenshot shows a web browser window displaying the CostIT application. The interface includes a navigation menu on the left with options like 'Beállítások', 'Telefonkönyv', 'Híváslisták', 'Időrendbe', 'Csoportosítva', 'Archív', and 'Tisztítandó'. The main content area displays a table of call records with columns for 'Hívott szám', 'Hívott fel', 'Hívás időtartam', 'Hívás db', 'Hívás díja', 'Privát', and 'Céges'. The table contains several rows of call data, including numbers like 1/305-6308, 72/456-778, and 20/890-7781, along with durations and costs in Hungarian Forint (Ft).

How does this solution work?

- ▶ The detailed call lists from fixed line and mobile telephone providers, and the PBX call lists are loaded into the accounting system.
- ▶ The employees may list their own calls upon demand, in optional grouping pattern, and can mark their official and private calls.
- ▶ The telephone books of official and private calls help retrospective processing, and these registrations also minimize the administrative burdens.
- ▶ The system gives automatic recommendations for private calls, based on previous markings.
- ▶ Due to the automatic built-in features, filling out the monthly accounting only takes a couple of minutes.
- ▶ The system forwards the invoicing summary to the finance department, and ensures fast and simple accounting.

The use of this system may decrease the corporate burdens even by 40% due to the payment obligation changes in the area of taxes and dues.
